How to Build a Better Bootstrap

Tuesday, April 11

7:30 a.m. - registration; 8:00 a.m. - program

Determination and hard work are still what it takes to get ahead, but they've never been ALL it takes. Every success story is about being in the right place, at the right time, with the right skills. Get an inside look at Minnesota-grown solutions that put self-sufficiency within reach for hard-working families – and a new pool of skilled workers within reach for local employers.

Second Helping: Panel Discussion — 9:15 a.m.

If you're hungry for more, join us for a panel discussion representing the major 'players' in this issue: worker, employer, trainer, and local intermediary. Join Wilder researcher Ellen Shelton to talk about practical steps toward a win-win alignment of worker skills and employer needs.
